### The "HD" series of MVS Mobile Digital Recorders

The MVS-DE-HD mobile vehicle DVR comes with a removable HDD tray that will accept single or dual solid state SATAII SSD in 128gb or 256Gb drives for massive Solid State Memory. In this SSD configuration it has no moving parts making it our Best Value vehicle video camera system choice, able to endure very harsh environments making them well suited for high risk vehicle applications like school bus, law enforcement, EMS, transit, taxi, service or delivery vehicles.

HD Solid State SSD based DVRs can offer a vehicle digital video recorder memory storage device that is expected to outlive the vehicle.

The Standard version comes with 250Gb, 500Gb or 1 Tb removable SATAII drive for massive memory capacity to support up to 16 channels of cameras recording video and audio at D1 30FPS.

### The #1 connective, versatile & expandable mobile video recorder made in the USA
